DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Boalick on 9-24-04.

The application has been amended as follows:

In claim 1, line 1, delete "fins or other".

In claim 1, line 2, delete "a missile or similarly launched and".

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or make obvious the claimed system for deployment of guidance devices. Specifically, the prior art fails to show a missile body, a plurality of actuators in the body, a plurality of fins about the periphery of the body, a shaft connected to each one of the fins and to each one of the actuators so that the actuators can rotate the fins, a plurality of slots parallel to the longitudinal axis of the body, a hinge and spring on each fin such that the spring rotates the fin about the hinge toward an inner surface of the slot, and where rotation of the fins by the actuators to a point the fins clear the slots allows the spring to deploy the fins by rotation about the hinge.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-5 are allowed.

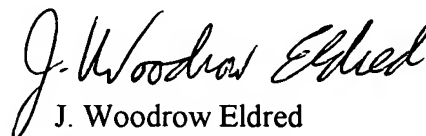

Art Unit: 3644

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Eisentraut et al, Casiez et al, Jimmerson, and Goulding are cited as being of interest since they disclose fin deployment devices.
